

Announcement / Invitation

The Technical Committee (TC) of the Int.CA brings to your attention, that a

Seminar on Measurement of 2.4mR Boats
will be held in
48157 Muenster, Germany
on the
01. and 02. Feb. 2020.

Target Group:

Existing 2.4mR Official Measurers (OM).

Existing OM's of other classes interested in being appointed as 2.4mR OM's.

Other people seriously interested in becoming a 2.4mR OM (subject to available space).

Purpose:

Harmonising measurement practice and discussing Problems/Ideas.

Refreshing or implementing knowledge of measuring a 2.4mR.

Growing the number of OM's and possible IM's in the Class.

Program:

Fr. 31. Jan. arrival of participants, social event.

Sa. 01. Feb. Theoretical overview, practice part with main goal in fundamental measuring.

Su. 02. Feb. Theoretical overview, practice part with main goal in OD-measurement.

Closing approx. 14:00 Hrs local.

Organisation, Costs:

The seminar itself and the accommodation are organised and funded by the Int. CA.

Travel and dinner expenses are on the participants and/or their NCA's. Limited funds for compensation may be available from the Executive Committee (EC) upon application.

The TC reserves the right to cancel the seminar if there are less than 6 participants. Capacity is limited to 16 participants.

Action required:

Inform your OM's or candidates.

Report participants names, status (2.4-OM, other OM, or OM-candidate) and e-mail address and phone number to gordonkempsey@aol.com **not later than 17. Dec. 2019.**

The TC will than finalise everything and send out the documents incl. travel information to the NCA's and participants.
